Custom Cardboard Dress Form

Proposal for Lissila Boutique · from Matt Allpass · November 2026

A laser-cut cardboard dress form built the way your shop form is built, to the measurements on its note. From $150 for the cut file to $650 built and shipped, with a discount on every extra form.

What it is

Rendered from the actual cut files: front, side and back, on a standard stand pole.

The form is 44 solid horizontal slices at 1 in spacing threaded on your stand pole and keyed to 4 vertical ribs, with short side ribs at the hips, shoulders made of tall fins, and a neck column on top. Every piece is two layers of double-wall cardboard glued with the flutes crossed, half an inch thick, so nothing in it bends or sags. The shape comes from a 3D body model scaled to your form's measurements, not a generic size, and it is 45.5 in from neck to hem like the one in the shop.

MEASUREMENT	FROM THE NOTE ON YOUR FORM	THIS FORM
Chest	37 in	37 in
Waist	28.5 in	28.5 in
Hips	36 in	36 in
Across the shoulders	19 in	19 in, matched before cutting
Neck to hem	45.5 in	45.5 in

More than one form

Ordering more than one assembled form: $100 off the second and $200 off the third, same size or a different one. Kits and digital files stay the same price each; two kits still share one box, so shipping drops.

	FIRST	SECOND	THIRD
Flat-pack kit	$350	$350	$350
Assembled form	$650	$550	$450
Digital file	$150 per size		

Two kits: $700 plus about $110 shipping in one box. Two assembled forms: $1,200 plus about $360 shipping.

Timeline and terms

Digital file: paid when the file is sent. Kit and assembled form: half on order, half plus shipping before it ships. Kits ship 2 weeks from order, assembled forms 3 weeks, by UPS or USPS to San Diego with tracking. The form comes in plain kraft with the corrugation showing on every edge, like your shop form; paint or cover it if you like. Prices are good for 30 days.
